Callicarpa			
dichotoma 'Duet'	avail	12-15"	\$20.00
A beautiful, white variegated, white fruited selection of beautyberry that is perfect in the shade garden.			

<u>Cultivar</u>	<u>Qty</u>	<u>Size</u>	<u>Price</u>
Camellia			
transnokoensis	avail	10-15"	\$25.00
<p>A truly delightful species with tiny leaves and flowers. This species is reportedly not cold hardy at all - this clone we have had in the garden to a few degrees below zero F with only slight damage. Slow growing, small shrub COVERED with tiny white flowers in the spring. One of my favorites!</p> <hr/>			

<u>Cultivar</u>	<u>Qty</u>	<u>Size</u>	<u>Price</u>
Cyrilla			
arida	avail	2-3'	\$20.00
<p>Rare species from South Carolina and Georgia with tiny leaves and typical Cyrilla flowers in the summer. Bees go crazy for the flowers. Blooms when very little is blooming in the garden. Needs good drainage.</p> <hr/>			

<u>Cultivar</u>	<u>Qty</u>	<u>Size</u>	<u>Price</u>
Elaeocarpus			
decipiens	avail	6-12"	\$30.00
<p>One of my favorite evergreen trees (hardy to zero degrees F) - related to bay tree - it has bright greenleaves, and in early spring and again in mid summer all the old leaves turn brilliant red (and then fall off). The two-tones green/red effect is STUNNING!</p> <hr/>

Euonymus			
americana (Evergreen form)	avail	18-24"	\$25.00

I received this selection from Tony Avent (Plant Delights Nursery) and have been amazed to see it staying evergreen most winters! (Mine dropped their leaves this fall due to a very quick cold spell before leaves had time to harden off). Heavy fruiting on an very heavily branching plant. Great for a slightly shady spot.

Jasminum			
Fiona Sunrise	avail	18"	\$20.00
Bright golden foliage and a semi-climbing shrub. Much more cold hardy than I expected - OK to near zero F. Brightens up a shady area or makes a brilliant show in the sun.			

<u>Cultivar</u>	<u>Qty</u>	<u>Size</u>	<u>Price</u>
Juniperus			
rigida (wild collected)	avail	8-10"	\$20.00
Very upright growing form with spiny leaves. Great for a dry, sunny spot.
